ROCKBEAR MANOR

NE EXETER, DEVON.

Dear Dr. Gray

You will remember that you said when you were here, that you would attend to the MSSes of N. A. - for me -

As I suppose you are now quite settled at home, I enclose the last two statements I received from the Publishers, & also an extract from the articles of agreement.

I suppose these papers will give you all the requisite information necessarily for you to bring Cassino's successor to book.

I hope you & Mrs. Gray had a good voyage home, but one can hardly expect halcyon days so near the equinox -

I send a sheet of the "Times" with the account of Prof. Sargy's mistake about the Beech & the Birch tree, thinking it may interest you -

Tell Mrs-Gray that I will send her Babyx-  
eyed needles soon - but they would have

overweighed this letter & I have not yet received  
the numbers she desired -

With much love to you both  
ever your old friend

Isabella James -
